

NATADORA

OPIA SOFA & CHAIR

by cameron foggo

Opia is what happens when the orthodox modular sofa is given the Natadora treatment.

Cameron Foggo's handwriting is apparent in the relaxed elegance, graceful proportions and subtle details which set it apart from generic modular solutions. Feather padding on all surfaces bring a welcoming softness and roundness to the square form of the sofa, and the all-out luxurious comfort and superior execution are the hallmarks of Natadora production.
