## MONDAY DINING CHAIR

by cameron foggo

At first glance a simple, minimalist shape, Scandinavian in character. But a closer look reveals an interesting overlap of the seat and back panels, offered in both veneered plywood, and upholstered versions. Great skill and execution is required in pulling off this deceptively simple design, but the success of the product shines brightest when the difficult is made to look easy.

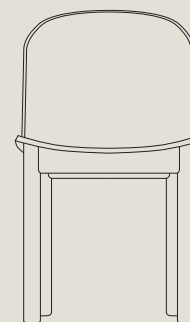

# AVAILABLE IN THE FOLLOWING CONFIGURATIONS

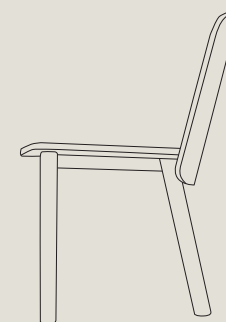

monday chair
